6. REPORT OF THE ACADEMIC BOARD HELD ON 21 MARCH 2012

6.1 Disestablishment of the School of Biomedical, Biomolecular and Chemical Sciences and Establishment of New Schools – Refs F1158, F4956

The disestablishment of the School of Biomedical, Biomolecular and Chemical Sciences had been part of a broader re-structure which included merging staff in the discipline of Physiology with those in the School of Anatomy and Human Biology.

After consideration of proposals from the Faculty of Life and Physical Sciences the Academic Board had made recommendations to Senate relating to the naming of two new schools as set out below:

6.1.1. School of Chemistry and Biochemistry – Ref F4956

RESOLVED - 15
that the new school comprising the disciplines of Chemistry and Biochemistry be named the School of Chemistry and Biochemistry.
6.1.2 School of Anatomy & Human Biology – Ref F4589

8. SENATE STANDING COMMITTEES

8.1 Report of the Audit and Review Committee – Ref F13793

8.1.1 Maintenance Audit

The Committee had considered a report on the maintenance backlog and heard that the
University is currently spending around 0.6% of ARV on maintenance. Ideally this should be
increased to 1.5% but in the immediate future an increase to 1% would enable Facilities
Management to address the current backlog liability and a portion of new maintenance and
asset renewal identified through condition assessments and asbestos audits. It would also cover recurrent preventative, operational and corrective maintenance costs.

The Audit and Review Committee had resolved to recommend to Senate that a budget allocation of 1% of ARV be approved with a move to 1.5% over time.

RESOLVED - 22

to refer the maintenance backlog paper and recommendations of the Audit and Review Committee to the Strategic Resources Committee for consideration and advice in the context of the overall budget.

8.2. Report of the Chancellor’s Committee – Ref F746
